

How to Print and Collect Job (Macintosh)

Download HP printer drivers from Apple website

HP Printer Drivers v5.1 for OS X

System requirements: OS X Mavericks and later

https://support.apple.com/kb/DL1888?locale=en_US

HP Printer Drivers v3.1 for OS X

System Requirements: OS X Mountain Lion, OS X Lion

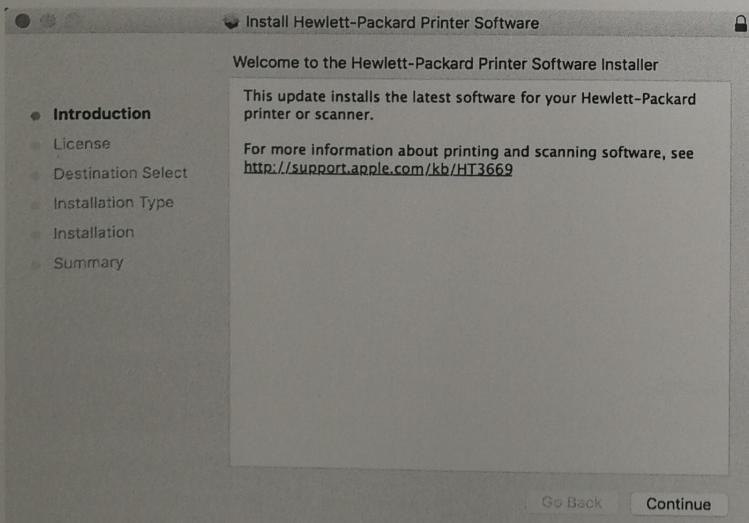

https://support.apple.com/kb/dl907?locale=en_US

Printer driver installation

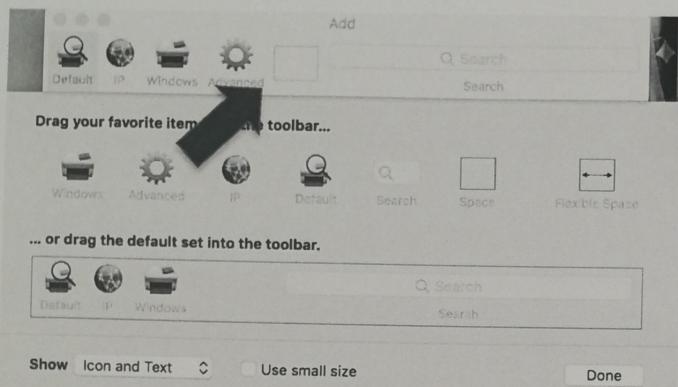

After downloading the HP printer drivers package, double click the file to run installation.

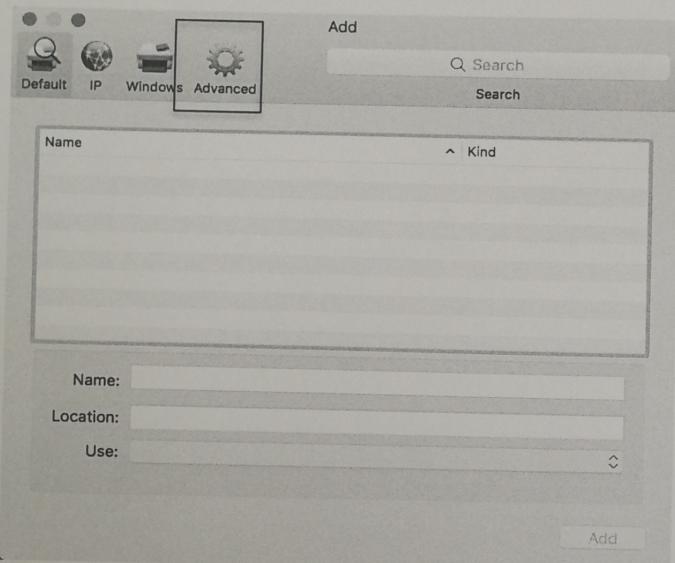

Follow the instructions and press Continue button to proceed.

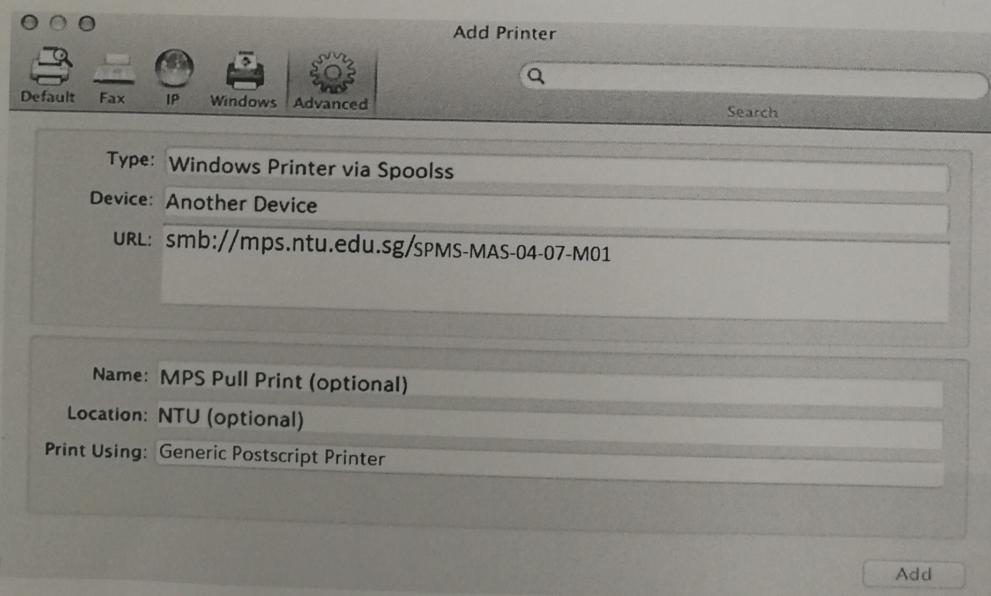

If you do not see the Advanced button  in the toolbar, right-click on the toolbar and select Customize Toolbar. Drag the Advanced button to the toolbar.

Press the Advanced button to add the print queue.

Enter the following settings as per below. Under Print Using, choose select software and look for "HP Color LaserJet flow MFP M880" and click on the Add button to finish the setting.

Select the trays according to your printer, check Duplex Unit and press the OK button to complete adding the print queue.
